Subject: Transition from California Outcome Measurement Service for Prevention (CalOMS Pv) to Primary Prevention SUD Data Service (PPSDS)

To: CalOMS Pv Primary and Secondary Contacts

The Department of Health Care Services (DHCS) Substance Use Disorder Program, Policy and Fiscal Division, Policy and Prevention Branch is updating the data collection service used to collect and report primary prevention substance use disorder program and activity data. As reported in the Mental Health Substance Use Disorder Services Information Notice No.: 17-014, a systematic process will guide and coach each county to transition from the current CalOMS Pv to the new data collection and reporting service scheduled to go live on October 1, 2017.

To continue the transition process to the new PPSDS and to prepare for the October 1, 2017 go live date, statewide training will occur during September 2017. This e-mail contains general information for county staff who are registered to attend one of the eight scheduled training events.

- The training agenda is attached as a separate document.
- The training will run from 9:00 a.m. - 4:00 p.m.
- Lunch will not be provided. All participants are encouraged to either bring a lunch or plan to purchase lunch locally.
- Training format
 - The training will be delivered by the system developer, FEi Systems.
 - A “hands on” approach will be used.
 - Each training participant will receive a User ID and password to access the test PPSDS system.
 - A sample county strategic prevention plan will be used to coach and guide each participant through the PPSDS.
 - The training classes are purposefully designed to be small to allow for instructor/participant interaction.
- All training locations, except Santa Ana, Orange County will have internet access. FEi Systems staff will bring a hotspot. To ensure internet availability for all, training participants registered for Santa Ana are requested to bring a hotspot, if available.
- A computer lab will be used at the Sacramento and Bakersfield training locations. Computers will be provided at these two locations.
- For all other training locations, participants should bring a laptop that meets the following minimum requirements.

	Minimum	Preferred
Processor	1.5 GHz + Intel or AMD Processor	2.0 GHz + Intel or AMD Processor
RAM	4 GB of RAM	8 GB of RAM
Operating System	Windows 7 or higher	Windows 7 or higher
Internet Connection	3 mbps broadband	10 mbps broadband
Browser	Internet Explorer 11 or later	Internet Explorer 11 or later

Training Dates/Locations

Training Date	Training Location	Training Address
